

3rd DAM CONSTRUCTION PROJECT Press Release

City of Logan
Mark Montgomery
Light and Power Director
435-716-9744
mark.montgomery@loganutah.org

August 29, 2018

Logan Light and Power announces the beginning of the reconstruction of Logan 3rd Dam. Construction activities will begin on Tuesday, September 4th, 2018. This will take place over the next two fall, winter and spring seasons (2018-19 and 2019-20).

The construction will affect traffic at times on the canyon road in the vicinity of the 3rd Dam. There will be times of brief lane closures with flaggers. There will be increased construction equipment and truck traffic. Please be courteous, safe and follow the instructions of the flaggers in the construction zone. The U.S. Forest Service will be closing Gus Lind campground during these times.

Thank you for your patience while we improve the facilities at 3rd Dam.
